RICHARD PAUL BRONOSKY

Richard@Bronosky.com   53 Blackberry Lane, Douglasville, GA 30134   Mobile: 404-922-7866

OVERVIEW

management of systems engineers & software developers; workflow optimization; web application development; system administration of various Unix & Gnu/Linux; Xen virtualization host & guest administration; optimization of RAID, swap, and cache; MySQL high availability, replication, disaster planning, performance tuning, schema design; application code security & performance auditing; data transformation & migration via MS SQL Server Integration Services; management of SLAs as both the vendor & vendee; strong verbal & written communication skills; excellent troubleshooting & debugging skills

— I do all development with command line tools for complete system/location agnosticism. Both local & remote I use Gnu Screen, BASH, VIM, and SSH+SOCKS proxy (of http, imap, etc.) for maximum efficiency. References can be found at http://www.linkedin.com/in/richardbronosky. Code samples, LaTeX source for this resume, and open source projects are available at http://github.com/RichardBronosky/. Active member of ServerFault and various mailing lists.
